## IKEA® CUSTOM COUNTERTOP TERMS & CONDITIONS

Thank you for shopping at IKEA. A carefully selected independent custom countertop service provider will perform the template, fabrication and installation of your countertop. In order to make this a successful process and experience for you, your participation is needed.

### PLEASE ENSURE THAT:

Homeowner or designated representative over 18 years of age or older must be present during the entire template and installation process. This person must approve all completed work and sign off on a completion certificate signifying all work has been done to their satisfaction. Service Provider will not proceed without a person of authority present, cabinets installed correctly, and drywall/wall finishes are complete.

If these or any of the below preparation requirements are not met, an additional trip charge may be applied and an appointment to reschedule will be made. The charge for an additional trip is \$225.

### PROJECT PREPARATION:

- Service Provider will contact homeowner within 3 business days of receipt of order to schedule template appointment.
- A minimum 48-hours' notice is required if a scheduled appointment must be cancelled/changed in order to avoid a missed appointment fee.
- If installing new cabinets: all base cabinets, doors and drawer fronts, support panels, etc. must be permanently set/level and secured to the wall/floor. All plumbing and electrical work is the responsibility of the homeowner. Failure to do so may result in an additional charge for a return trip.
- **All cabinets must be permanently fixed, installed and level to within 1/8" on a 9 ft. run.** Service Provider will not be responsible for leveling cabinets. Please ensure that all end panels, finish caps, tangential walls, and trim pieces are permanently installed before template. Failure to do so may result in an additional charge for the return trip.
- If using existing cabinets-all existing countertops must be removed prior to template date. Any leveling, structural repair, plumbing or electrical work is the responsibility of the homeowner. Cabinets should be cleared and all items removed from under the sink prior to template. Failure to do so may result in an additional charge for return trip.
- Parking must be provided by customer on template and installation day. If service provider is asked to halt work due to HOA noise requirements, hours, etc., an additional trip charge may be applied to complete installation at another time. It is your responsibility to inform the service provider at the time of template scheduling of any HOA restrictions and/or covenants regarding noise, hours etc.
- All new or existing sinks, faucets, cooktops and stoves that shall be installed will need to be onsite at the time of template. All required products, cutout information and/or product templates are to be given to the service provider at the time of template. If appliances require modifications to cabinets, it is the responsibility of the homeowner.
- Under mount farm sinks must be mounted prior to template.

- Full height backsplash (those that run the entire space between the countertop surface and the bottom of the wall cabinets) may require to be measured after the countertop installation to ensure accuracy. The service provider shall determine this at the time of initial template.
- Removal of existing countertops may expose unpainted or unfinished walls or cabinet areas which may not be fully covered by the new countertop installation. Homeowner assumes the responsibility for patching holes, painting, tiling, and/or replacing trim on newly exposed surfaces and it is recommended to wait until after your new countertops are installed to do any work on newly exposed areas not covered by your new countertops.
- Existing countertops must be removed prior to template date by others unless service provider is contracted to perform tear-out and disposal of existing countertops. All existing sinks, faucets and appliances must be unattached and uninstalled prior to template date.
- If service provider performs a tear-out of existing countertop, service provider is not responsible for leveling the existing cabinets if found to be out of level.
- At time of template, if there are any deviations from original project specifications, service provider will contact the IKEA store from which you purchased your countertops with any changes due to specification changes, additions, subtractions or variations in square footage. Service Provider will not proceed with work until so notified by IKEA.
- Changes will result in the rescheduling of the installation date. The new installation date may be up to 10 working days\* from the time the service provider receives approval from IKEA to proceed. Approval time to proceed varies depending upon your approval and payment for the change order.
- If additional template trips are required due to any changes or person of authority not present at template appointment, the installation may be delayed and customer will be required to pay a trip charge associated with the need to re verify template at the jobsite.
- After template completion, all project details will be considered final and CANNOT be changed.
- Service Provider shall confirm template and installation appointments 1 to 2 business days prior, with a 3 hour window of arrival due to traffic delays. Actual installation time shall vary depending on factors such as jobsite conditions, project complexity, acts of nature or power outages.

#### **FABRICATION/INSTALLATION:**

- All sinks must be made available to the fabricator for precise cutting. Service Provider is not responsible for any situations where plumbing has been reconnected before job completion. Please note the job cannot continue without sink being available at time of template.
- Prior to installation, please cover anything you want to protect.
- Access to water and electricity is required so service provider can complete any detailing required. This will result in some dust, so please take precautions to cover anything you want to protect.
- Any debris created by the service provider will be removed and disposed of by the service provider. Homeowner is responsible for any debris removal and disposal not created by the service provider.

- All seam locations are determined by the service provider and they reserve the right to place seams in the most structurally sound locations. Seam locations are determined after engineering review by the service provider and are not determined at the time of template.
- Cook-tops will need to be disconnected. Ranges and refrigerators may have to slide out if the space is too tight. Ranges and Refrigerators should be moved out of their cabinets to allow the installers free access to all countertop edges. It is the homeowner's responsibility to move and/or disconnect all appliances.
- Please have all pets secured prior to appointment/installation dates.
- Make sure all pathways are clear of any obstructions. Countertops are heavy and require a clear and safe path to maneuver them during installation.
- All final prep, sheetrock, drywall/wall finishes, and detail work not associated with the countertop installation are the responsibility of the homeowner and need to be completed prior to the countertop installation.
- Allow 24 hours for all silicone and/or caulking to cure prior to countertop use.
- Please wait minimum 24 hours to plumb under mount sinks.
- Upon completion of your new countertop installation, you will be asked to sign a completion certificate. It is the responsibility of the home owner to inspect work thoroughly and bring any concerns immediately to the attention of the installers. It is our goal to deliver quality products and services. Your satisfaction is of highest importance.
- Countertops have to be installed within 90 days of template completion.

**CANCELLATION:**

- Prior to template, order can be cancelled and refunded within 365 days.
- Orders cancelled after templating but prior to production will be subject to \$225 template fee.
- No cancellations after production and or installation.

**FAQ's:**

1. **How do I change my template or installation date?** If you would like to or need to reschedule your template date please contact \_\_\_\_\_ at least 48 hours before your scheduled template date. The same applies to the rescheduling of an installation appointment.
2. **When can I expect to be contacted to schedule my template date?** Generally you will be contacted within 3 working days from receipt of your order by the service provider. If you have not received a call please contact \_\_\_\_\_.
3. **How long does it take to get my countertops installed after my template has been completed?** If upon template no changes have been identified by the service provider your new countertops will be scheduled for installation with-in 10 business days\*. The service provider will contact you to confirm an installation date.

If changes are required those changes will be communicated to the store and they will contact you to review those changes and make arrangements for additional payment. Once this is completed and the service provider has been notified to proceed your countertops will be installed within 10 business days\*.

4. **What if I am not home at the promised date & time of template or installation?** The Service Provider will leave a note confirming that they attempted to complete the appointment. They will not return, they will make no attempt to return to complete the service. You must return to the store to pay for rescheduling of the appointment. The cost to reschedule is \$225.00

\*During peak periods this time could vary.

# IKEA® CUSTOM COUNTERTOP TERMS & CONDITIONS

# Special Care Considerations for Honed, Textured and Motivo™ Finishes

Caesarstone is proud to offer select colors in **Honed**, **Textured** and **Motivo™** finishes.

Please note that **Honed**, **Textured** and **Motivo™** finishes require more daily maintenance than polished finishes. Since there is more exposed surface area, metal marks, fingerprints, and other signs of daily living are more apparent, especially on darker colors. However, superficial marks can be removed with little effort by using nonabrasive cleaning products such as Soft Scrub® Gel with Bleach Cleanser or Comet® Scratch Free Soft Cleanser Cream with Bleach. Rinse thoroughly with water.

By signing this document, you agree that the properties of these unique finishes have been fully explained to you, and that you understand that more frequent cleaning may be required to keep the product looking new and free of marks. You also understand that while Caesarstone has a Residential Lifetime\* Warranty, this warranty covers failures caused by product defects when the material is installed by a Caesarstone Certified Fabricator. Temporary marks that are common on the Honed, Textured and Motivo™ finishes are not covered by this warranty.

For additional warranty information, please refer to the *Residential Lifetime\* Warranty* and *Care and Maintenance* sections of the Caesarstone USA website at [www.caesarstoneus.com](http://www.caesarstoneus.com).
